Anti-p300 Rabbit pAb

Purified Rabbit Polyclonal Antibody

Catalog # P105161

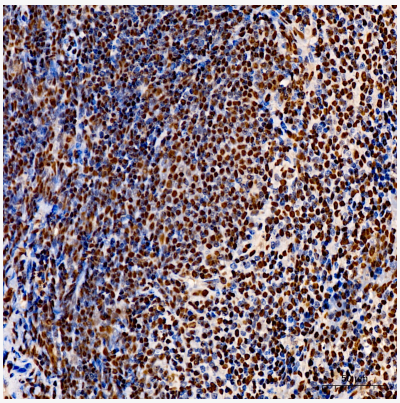

Product Information

Application	IHC-P, ELISA
Reactivity	Mouse, Rat
Dilution	IHC-P 1:50~1:200
Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Label	Unconjugated
Immunogen	Recombinant Protein corresponding to a sequence within amino acids 940-1030 of human EP300(NP_001420.2).
Format	Affinity purified polyclonal antibody supplied in PBS with 0.02% sodium azide and 50% glycerol, pH 7.3.
Storage	Shipped on wet ice. Store at -20°C. Stable for 24 months from date of receipt. Aliquoting is unnecessary for -20°C storage.
Precautions	Anti-p300 Rabbit pAb is for research use only and not for use in diagnostic or therapeutic procedures.

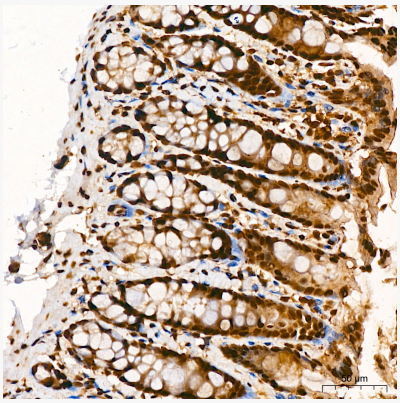

Protein Information

Synonyms	p300; KAT3B; MKHK2; RSTS2; EP300.
Calculated MW	Calculated MW: 264 kDa; Observed MW: Refer to figures
Uniprot ID	Q09472
Gene ID	2033
Background	This gene encodes the adenovirus E1A-associated cellular p300 transcriptional co-activator protein. It functions as histone acetyltransferase that regulates transcription via chromatin remodeling and is important in the processes of cell proliferation and differentiation. It mediates cAMP-gene regulation by binding specifically to phosphorylated CREB protein. This gene has also been identified as a co-activator of HIF1A (hypoxia-inducible factor 1 alpha), and thus plays a role in the stimulation of hypoxia-induced genes such as VEGF. Defects in this gene are a cause of Rubinstein-Taybi syndrome and may also play a role in epithelial cancer.

Validation Images

Immunohistochemistry analysis of paraffin-embedded Mouse spleen tissue using EP300 Rabbit pAb (P105161) at a dilution of 1:100 (40× lens). High pressure antigen retrieval was performed with 0.01 M citrate buffer (pH 6.0) prior to IHC staining.

Immunohistochemistry analysis of paraffin-embedded Rat colon tissue using EP300 Rabbit pAb (P105161) at a dilution of 1:100 (40× lens). High pressure antigen retrieval was performed with 0.01 M citrate buffer (pH 6.0) prior to IHC staining.
